and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I am a single mother of one. I am employed and I provide my son and I with our own health insurance through my employer. I DO NOT recieve any assistance from the State of Kansas. I depend on my cell phone as a back up for an emergency. I do not want to be stranded along the highway when we travel to see family members and it is a way for my son's school to get in contact with me when I am not at home or work. It is more of a safety issue for me than a requirement for some others. Please consider those in my situation that rarely use a cell phone.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Rhonda Jenkins
